

I LIKE IT

Music and lyrics: B.CHAMBERT

Hey girl this song's so that you'll understand
What a man can think when he's just takin' your hand
No place here for fairy tales but... I like it!

Just to see you in the garden reading a magazine,
Don't care bout the clock, your spare-time activities...
Oh Baby baby you drive me nuts... N' I like it!

When I get a date with you it's not to have a coffee.
Don't care about your job and if you've got a baby.
Just wanna put you in my bed and nothing else...
Oooh... Don't need more time. Baby just to see what you've got inside!

Chorus:

I like it! (x3) Girl we've got no limit!
I like it! (x3) It's hard for you to see the truth... But I'm sure it'll do you good.

You roar with laughter with your beautiful smile,
My preconceived jokes always hit the bull's eye
If you believe you're the only one... Well, I've won!

You dream of me as a faithful husband
That's why my wedding ring is deep in my pocket.
Don't hesitate to invite your friends, got a double bed.
Ooh... Livin' in a fantasy! You give me sex and ecstasy!

I like it! (x3) That's right we can be nasty!
I like it! (x3) and now you will like it too!

Guitar Solo

I like it! (x3) Can you remind me of your name?
I like it! (x3) Gonna get you in heaven!
I like it! (x3) Sure I got another mistress.
I like it! (x3) My X-Ray eyes never fail!

Hey girl I hope you have understood
What's shakin' in our heads every time you move.
No more stories, no more lies and we'll like it!

I like it! (x3) Girl we've got no limit!
I like it! (x3) It's hard for you to see the truth
I like it! (x3) That's right we can be nasty!
I like it! (x3) and now you will like it too!
